Objective

To become full stack developer Motivated computer science student aiming to begin a career as a Full Stack Developer by building user-focused web applications and growing in a collaborative environment.

Skills

- **Programming Languages** – Java, SQL
- **Web Technologies** – HTML, CSS, JavaScript
- **Frameworks** – Spring Boot
- **Tools** – Docker, GitHub, VS Code, Eclipse
- **Databases** – MySQL

Education

Government College Of Engineering, Erode, BE in Computer Science
CGPA: 8.72(Till 5th Semester)

Nov 2022 - Jun 2026

Projects

Book Store Application Java | Spring Boot | Jsp | MySQL | HTML | CSS Jun 2025

- Built a Book Store web app using JSP and Spring Boot with features like user registration, book browsing, and admin inventory control. Integrated MySQL using Spring Data JPA for seamless data management.

Meeting Itinerary Planner Java | Spring Boot | Jsp | MySQL | HTML | CSS July 2025

- Developed a Meeting Itinerary Planner using JSP and Spring Boot to manage meeting schedules with participant details, integrating MySQL and Spring Data JPA for efficient data handling.

Fashion Store Website HTML | CSS | JavaScript May 2025

- Developed a multi-page fashion store website with Home, Services, Purchase, and Cart sections using HTML and CSS. Focused on responsive design and deployed it live on Netlify for public access.

Internship

Full Stack Development with Java – Incrix Techlutions LLP

Jun 2025 – July 2025

- Gained hands-on experience in building dynamic web applications using **Java, JSP, Spring Boot, MySQL**, and along with **HTML, CSS, and JavaScript**. The course included modules on RESTful API development, database integration, and deploying full-fledged Java-based applications.

Certifications

- **NPTEL – Programming in Java**

Completed structured courses covering programming fundamentals, logic building, and problem-solving, with hands-on practice through coding assignments and assessments.

- **Coursera – Introduction to Front-End Development**

Acquired foundational knowledge of front-end technologies, including HTML, CSS, and JavaScript. Developed practical skills in building user interfaces and designing structured, styled web pages.

Area of Interest

- Full Stack Development with Java
